ANGELA ANDREELLA

PhD Student - University of Padova

I am a Ph.D. student at the Department of Statistical Sciences of the University of Padova, Cycle XXXIII. I am working with Professor Livio Finos about statistical methods to analyze neuroscience data, e.g. fMRI data. Mainly, my interest is to connect the psychological and statistical fields improving both areas. For that, I am a member of the Psicostat group at the University of Padua.

One project is about a spatial regularization of the Procrustes method used in the functional alignment of brain data. I am collaborating with Professor James Haxby from the Department of Psychological and Brain Sciences at Dartmouth College and with the Haxby Lab.

Another project is about a permutation approach of the All Resolution Inference method under the supervision of Professor Jelle Goeman from the Department of Biomedical Data Sciences and Professor Wouter Weeda from the Department of Psychology at Leiden University.

I am also collaborating with Paolo Brambilla and Giuseppe Delvecchio on various psychiatrical and psychological projects.

INTERESTS:

- · High Dimensional Statistics in Neuroscience
- · Multiple Testing in Psychology, Psychiatry and Neuroscience
- Permutation Tests in Psychology, Psychiatry and Neuroscience
- Procrustes Methods in Neuroscience
- · Multivariate analysis in Psychology and Psychiatry

10/2017 – now **University of Padova**

PhD Student

Padua, Italy

Thesis: Multivariate analysis in functional magnetic resonance imaging (fMRI) data

10/2013 -03/2016 University of Padova

M.S. in Statistical Science - 104

Padua, Italy

Thesis: The Catalan National Movement analyzed by Twitter data.

10/2010 -04/2013 University of Padova

B.S. in Statistical Science - 110

Padua, Italy

Thesis: Twitter Sentiment Analysis in Monti's 2013 election campaign.

04/2019 | 07/2019 Visiting PhD Student

LUMC, Department of Biomedical Data Sciences.

Leiden, Netherlands.

LANGUAGES

Professional proficiency: Italian (mother tongue), English, Spanish

Elementary proficiency: French, Catalan

COMPUTER SKILLS

Statistical Packages: R Software - SPSS - SAS - STATA

Languages: R - Python - Matlab - C++ - Markdown - SQL

Other software: LaTeX - Gimp - FSL - GIT

This resume was made with the R package **pagedown**.
